POLICY JUSTIFICATION

Kuwait—Design and Construction of the Kuwait Ministry of Defense Headquarters Complex

The Government of Kuwait has requested to buy planning, design, construction, and associated procurement of Kuwait Ministry of Defense (KMOD) Headquarters Complex in Kuwait. This includes provisions for all physical building and infrastructure construction costs. The U.S. Army Corps of Engineers will provide life cycle design, construction, and project management, engineering services, technical support, facility and infrastructure assessments, surveys, planning, programming, design, acquisition, contract administration, construction management, and other technical services. The overall project includes over twenty facilities, including primary headquarters facilities for both civilian and military leadership, as well as any and all engineering studies, designs, construction, and construction management services necessary in order to provide a fully functioning headquarters complex. The estimated total cost is \$1 billion.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the infrastructure of a Major Non-NATO ally that has been an important force for political stability and economic progress in the Middle East.

This proposed sale will improve Kuwait's capability to meet current and future threats by modernizing the KMOD headquarters and associated infrastructure. Kuwait will have no difficulty absorbing this infrastructure, support, and associated services into its armed forces.

The proposed sale of this infrastructure and support will not alter the basic military balance in the region.

No principal contractor has been identified for this sale. Contracts funded by this case are likely to be competitive acquisitions. The host nation has the ability to limit competition if they so choose, but has not requested to do so at this time. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of as many as ten (10) additional U.S. Government or U.S. contractor representatives to Kuwait for a duration of up to seven (7) years to provide construction management and oversight. It may be possible to utilize locally available labor to provide some oversight services in lieu of the assignment of U.S. personnel to the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

ARMS SALES NOTIFICATION

Mr. MENENDEZ. Madam President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the

sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TRIBUTE TO DR. SALLY ROCKEY

Ms. STABENOW. Mr. President, it is my privilege to recognize and honor Dr. Sally Rockey, the inaugural executive director of the Foundation for Food and Agriculture Research, and a pioneer in Federal research, on the occasion of her well-earned retirement.

Dr. Rockey's career has improved countless people's lives through research, and she continues this mission today. She has been a leader in the advancement of research programs in both agriculture and biomedicine. She spent almost 20 years with the U.S. Department of Agriculture managing competitive research grant programs, and she was with the National Institutes of Health—NIH—for 11 years as the NIH Deputy Director for Extramural Research, where she led the operations of the world's largest extramural research program.

Together with Senator Pat Roberts, I established the Foundation for Food and Agriculture Research in the 2014

farm bill. Under Dr. Rockey's leadership, the foundation has become a significant force in the agriculture research community by developing innovative private-public partnerships to fund rigorous food and agriculture research. During Dr. Rockey's 6 years at the helm, the foundation awarded more than 250 grants in collaboration with over 550 partners. Her engagement with a broad swath of partners helps leverage \$1.40 for every dollar allocated by Congress. To put this into perspective, with Congress' investment of \$385 million over 10 years, along with the matching funds, the Foundation for Food and Agriculture Research is on track to invest nearly a billion dollars in agriculture research, an impressive feat for a new initiative and a testament to Dr. Rockey's leadership.

Dr. Rockey's legacy is not only audacious research—and the lives that are impacted by this research—but also the invaluable support the foundation provides to the next generation of scientists. During her tenure, the foundation established several programs that specifically prepare today's young scientists to address the food and agriculture challenges of tomorrow.

Dr. Rockey's future-focused perspective has led the foundation to create AgMission. Founded in partnership with U.S. Farmers and Ranchers in Action and World Farmers Organization, AgMission is an unprecedented global collaboration of farmers, ranchers, and scientists co-creating and rapidly expanding innovation, adaptation, and the adoption of climate-smart technologies. AgMission embodies our shared vision that agriculture can be mobilized to address the climate crisis.

I want to personally congratulate Dr. Rockey on the conclusion of her spectacular career in public service and wish her the best of luck on the start of the next chapter of her life.

We wish you well, Sally.
